

Daniel Herrera Urbano

Software Engineer

danielherurb@gmail.com | <https://daniherurb.site>

Profile

I am a final-year Software Engineering student with a strong interest in frontend development, particularly UI/UX design and implementation, an area in which I am eager to keep growing. In addition, I have extensive hands-on experience in API and back-end development.

My college years have taught me a lot about teamwork, communication skills, and a sense of responsibility. I consider myself resilient, adaptable, and highly motivated to keep learning, with the objective of continuing to grow as an engineer.

Technical Skills

- Languages: Java, JavaScript, TypeScript, Kotlin, Python
- Frontend: React, Tailwind CSS
- Backend: Spring Boot, Django, Elysia.js
- Databases: PostgreSQL, MongoDB
- Tools & Methodologies: Git, GitHub Actions, Docker, Figma, Scrum, Kanban
